I'd like to go over this permit with you. Can you look at the limits in the draft permit and compare them with the previous permit and highlight any differences? The limits in the 2014 mod 2 supersede the limits in the 2010 reissuance and anything that wasn't changed in Mod 2 remains the same. Does that make sense? Give me a call on Teams if it doesn't and I can go over what I mean. These mods create a lot of confusion when trying to get a complete picture of the previous permit.

Thanks so much!
